

## WHAT IS A VORTEX?

A vortex is a place of concentrated energy that people can feel or sense. It is like a huge magnet that is charged with the earth's natural positive, negative, or a combination of both energies. It is also where two or more of the earth's energy meridians called "ley lines" intersect with the earth's grid. Sedona offers 15 vortex sites within a 10 mile radius. ## About Lori Reed

**Lori Reed** is a warm, empathic, healer and clairvoyant medium. A natural intuitive since childhood, Lori's intention is to provide unique tools for each participant.

Having opened a holistic center back in 1996 well before self empowerment was a common practice, Lori was ahead of her time sharing love and ministering tools of enlightenment to anyone who asked.

She has studied with many master teachers over the past twelve years, including Sylvia Browne. Lori has also trained in kinesiology, Reiki, homeopathy, color/sound therapy, and other healing modalities (some of which she learned in Egypt), and all of which she makes available according to the needs of each individual.

### WHAT PEOPLE SAY:

My retreat with Lori facilitated an experience which was warm, eye-opening and empowering. The vortex hikes, meditations & group activities all helped to bring a sense of clarity to my life, AND the trip was so much fun!! Lori helped a group of strangers come together and feel safe with a nice balance of inner work and play. I would definitely go on another retreat with Lori and recommend it to anyone!!
